SENATE PASSES ON ASSESSMENT MORATORIUM

Word was received in Los Angeles June 1, that the senate had passed a resolution suspending claim assessment work for the year 1931-32.

Assessment work amounts to $100 worth of work on each claim each year. If this is not done the claimant loses his rights. The time for assessment work expires, July 1.

Nearly all work had been done by those who have the means. However, several have waited until the last moment in hopes that the bill would pass.

Following is a letter with a copy of the original telegram received from John F. Duling, mining engineer of Los Angeles.

Editor,
California Mining Journal
Nevada City, California.

Enclosed find copy of telegram from Senator Johnson announcing passage of moratorium on assessment work for the year 1931-32.

The miners have Congressman Swing to thank for getting this thru he steered it through the mining committee against considerable opposition, then through the lower house and through the senate commttiee, doing all of the detail work.

Senator Johnson gave it his loyal support in the senate. This bill will save the claims of many poor miners who are unable to do the work this year, and coming so late will not affect the employment situation materially, as practically all those who could afford to do so have already done their work.

Yours truly,
JOHN F. DULING.

The following is a copy of the original telegram sent by Senator Hiram W. Johnson:

1932 June 1 PM 1 28
AB527 12 Govt - SC Washington DC
John O. Bender, Atty at Law.
1125 Central Bldg. L. A.

SENATE TODAY PASSED JOINT RESOLUTION EXTENDING TIME FOR ASSESSMENT WORK MINING CLAIMS.

HIRAM W. JOHNSON.

This resolution was introduced to congress by Congresman Swing. As indicated in the above letter he gave his loyal support and worked unceasingly in his effort to get the bill through and so benefit claim owners

Senator Johnson also is to be commended for his support in the senate.

NEVADA CITY MAY HAVE CUSTOM MILL

Negotiations have been under way for some time between L. E. Stein, well known in local circles as a mining financier and G. M. Bettles, who is agent for the Queen Lil Mill on the Buffington property, looking to the leasing of the mill to interests allied with Mr. Stein for purposes of custom milling. Rumors are current locally that the financing of the project by Eastern interests has been arranged and that the mill will shortly be put inshape to receive custom ores.

If this move is consumated it will react most favorably on the local mining situation. As mining increases in the region the demand for milling facilities for small lots of ore will rapidly increase. The financing of mining work by the realization of profit from ores too low grade to ship to a smelter will serve to greatly stimulate digging and after all digging is the greatest need of the community.

While definite plans and rate schedues are not as yet available, it is understood that rates will be held as low as consistent with good business. The stimulation of mining endeavor will thus be part of a good project that in itself will prove profitable to those interested in it. It the need is apparent it is understood that flotation units will later be added to the mill in order that it may treat any type of ore found in the district.

Mr. Stein is expected to return to Nevada City within a few days after which it is hoped that fuller details of this timely move on his part bay be published.

FIRE RAZES FREEMAN HOTEL IN AUBURN

A fire which broke out in the Freeman hotel in Auburn Saturday morning caused damage to the extent of several thousand dollars. The blaze was first noticed on the third story of the buiding and is believed to have been caused by a chimney fire. Half of the hotel was affected by the flames and water is said to have done considerable damage to the balance.

The Auburn fire department, through hard fighting kept the fames confined to the interior of the building but was unable to extinguish the fire until considerable damage had been done.

The hotel is owned by John G. Walsh, who is mayor of Auburn and James S. Walsh of that city and is one of the oldest holstrys in northern California.

JULY 4TH IS TO BE CELEBRATED HERE

At a meeting of citizens held at the Chamber of Commerce rooms Tuesday evening it was decided to hold a Fourth of July celebration here.

Definite plans for the celebration have not been formed yet.

Carl J. Tobiassen is chairman of the general committee with Myers Mobley as secretary.

A Fourth of July celebration in Nevada City is always looked forward to with great pleasure by practically all of northern California. There were thousands of visitors in Nevada City two years ago when the 49er celebration was put over with such success by our prominent citizens.

NEVADA CITY OBSERVES MEMORIAL DAY CUSTOM

Memorial Day in Nevada City was fittingly and beautifully observed by a parade and services at the cemetery.

The services began with a parade through the streets formed by, first the American Legion color bearers and drum corps, the grand army veterans in cars, then a long line of school children, high school band, students and the Boy Scouts.

The services at the cemetery were held at the plot where many Civil war veterans are buried.

The meeting was assembled by the American Legion representative John N. O'Neill, who then introduced John J. Fortier, as president of the day.

After a short talk by Mr. Fortier the assembly sang "America," followed by a beautiful invocation by Rev. H. H. Buckner.

Miss Henrietta Glennon then read Lincoln's Gettysburg Address. Following this the high school band presented a selection.

Orrin J. Lowell was then introduced as speaker of the day. He gave a very good fifteen minute talk in which our country's history from the Civil War to the present was reviewed. He also paid tribute to the forces of the Unfted States in the wars in which our country has been engaged.

The program was closed by singing the "Star Spangled Banner", taps and an inovation.

LION HUNTER IN THIS VICINITY

J. Bruce, state lion hunter, arrived in town Monday on his way to the country surrounding the Junction Ranger Station. He brought with him a crew of men and dogs to assist him in ridding that section of the lion menace. He is to lodge temporarily at the cabin of Forest Ranger C. C. Hughes.

Mr. Bruce recently played at the Nevada theater, showing a lion hunting picture made by him.

RANDSBURG DISTRICT MINING NOTES

Mojave, May 26—W. E. Lambe of the Elephant mine and mill, shipped out a $700 gold brick Saturday, the result of a 55-ton mill run. 20 tons of the run was from the Sailor Boy mine.

Mr. Lambe states that the mill is making good returns, so well that local leasers are in hopes that the Elephant owners can arrange for running on their ores. Should they decide to take on custom work, at least 1000 tons of ore would be hauled in.

The Elephant mine is well ahead on ore for the mill.

William J. Quackenbush, manager of the Piute Mining company, near the St. Johns mine, Kelso creek, was a recent visitor, enroute to the mine.

Owing to a near breakdown in the compressor, operations were closed down for five days for repairs and parts that caused a speedy trip to Los Angeles for Mr. Quackenbush.

Thirty feet out from the 92 level the vein shows strong in good milling ore that will break as good as $40 to the ton.

The big mill at Millers, below Tonapah, after a quarter of a century of constant opration and crushing millions of tons of ore, has been shut down for an indefinite period.

The Inyo Register states that Cooper Shapley is in receipt of a telegram telling of a rich strike near Summit Springs, between Tonopah and Mina; that home of the ore is going as high as $5 to the pound.—Mojave-Randsburg Record-Times.

PRECIPITATION IN NATIONAL FORESTS ABOVE NORMAL

Nine out of fifteen weather bureau stations in the nationa forests of California reported the precipitation from July 1, 1931, to May 1, 1932, as being above normal, according to a survey made by the State Department of Pubic Works. Of this six below normal, two are only slightly below, but one, at Quincy, is 41.31 inches below. The station showing the highest precipitation above normal, 16.39 inches, is at Giant Forest in Sequoia National Park.

Released

SNOW POINT MINE OPENING SOON

Word was received by The Nugget Tuesday morning of the reopening of the Snow Point pacer mine, on the old Derbec channel, on the Middle Fork of the Yuba River in Nevada county. Mr. Andrew Walker of London, England, has been appointed to the position of superintendent and engineer, it was learned.

An interview with Mr. Walker disclosed the company's intention of driving a 2,000 foot tunnel which takes them through hard rock, and new equipment from Gardiner, Denver Co., of San Francisco, is being shipped in for this purpose. According to Mr. Walker, 15 men are to be employed in this work by July 1.

In answer to our inquiry concerning the hiring of men—when and where—Mr. Waker states that the full crew have already been arranged for, consisting mainly of local men.

WORK ON BIG BLUE AT KERNVILLE PROGRESSING

By Jo P Carroll

Kernville, May 28—Work on the Big Blue mine here is progressing rapidly, with a three-shift crew, under the supervision of Aerial Horle, for the American Smelting and Refining company.

Sinking a winze from the 260-foot level,, which is now down approximately 140 feet, it is planned to cross-cut after a depth of 150 feet drifting north and south to take in a ledge approximately 105 feet wide. This drift will follow along the hanging wall of the western vein of the Big Blue.

Efficiency Noted

In sinking the winze all ore is saved, as a vein is followed and shows milling value. An electric hoist is used for the handling of ore, while electric pumps keep the workings clear of water. A huge compressor supplying air for drilling and other purposes uses water for motive power, as supplyed by a 203 horsepower turbine and carried a distance of a mile and a half.

ATTORNEY SAYS PAST 3 YEARS ARE BLACKEST

Using bold strokes and dark colors John Francis Neylan, attorney and former member of the State Board of Control, painted the past three years as one of the "backest chapters in American history" when he spoke last week on the "Back to Good Times" program of Bank of America over stations KGO and KFI.

However, on another canvas he painted a picture equally bright with promise of the nation which he conceives as now being in the making He blamed politics for slowing down the return of good prosperity but declared that notwithstanding this the ground work has been laid to rebuild the nation's economic life "on a sounder, cleaner and more honest basis."

"We are paying the penalty and will continue to pay it for sometime to come, but we should put an end to the moaning and whining and wailing," said Neylan.

"We did not accomplish our demoralization over night and we will not remedy the situation in twenty-four hours. There is one essential element necessary to propel the country forward on the road to normal economic life which is straight ahead of us, and that element is confindence. Fundamentally, the American people have great fortitude, have a high standard of intelligence and are capable of greater national idealism than any nation in recorded history. There is no question about the ultimate restoration of confindence.

"Unfortunately, we are on the thrsehold of a politcal campaign. The party in power is desirous of remaining in power and the opposition party is desirous of securing control of the country. The country is being victimized while the strategists of the opposing political parties are devoting their attention, not so much to doing what is necessary to relieve the country, as to maneuvering their opponents into disadvantageous political situations.

"Government in the United States is today on the lowest plane that it has been in fifty years. Reckless waste and extravagance are destroying a large part of the income of our people and the politicians of both parties quarrel over the spoils of office.

"The dollar will buy more today than it would have bought at any time in the last thirty years. There is a buyers' market in every single branch of industry. The American citizen can clothe himself, house himself, educate himself, amuse himself, travel and provide for his old age more cheaply than at any time in two generations. This buyers' market is not going to last forever, because, even in spite of politicians, the ground work has been laid to rebuild our economic life on a sounder, cleaner and more honest basis.

"Fortunately, there are very definite indications that the fear and apprehension which have prevailed are abating and the sound common sense of the American people is asserting itself. People are beginning to realize that failure to take advantage of the present conditions so favorable to the buyer is just as ridiculous as was the childlike gullibility so universal in 1927, 1928 and 1929.

"In this industrial and mechanical world, the United States with the enormous and untold resources, its man power, its financial supermacy and with its sad but enlightening experience, is on the threshold of its greatest era of sound and profitable economic development. The people of the United States have lost billions in imaginary and psychological money, but the soul of the nation is healthier as a result of the experience"

$33,032 IS COUNTY SCHOOL FUND APPORTIONMENT

An item of interest to the taxpayers of Nevada county is the last apportionment of the county school funds for both elementary and high elementary school salaries amounted to $8,694.42 general, $5,740.70; Special, $3,545.35.

For high schools the total apportionment for salaries amounted to $6,265.60; general $4,206.40; special, $4,579.47.

The following report by districts turned in to The Nugget by Mrs. Ella M. Austin, County Superintendent of Schools of Nevada County is as follows:—

Last Apportionment of County School Funds:

Dist.	Salary	General
Bear River	$ 122.68	$ 82.80
Birchville	106.98	73.30
Blue Tent	110.12	75.20
Boca	116.40	79.00
Cherokee	116.40	79.00
Chicago Park	128.96	86.60
Cear Creek	119.54	80.90
Floriston	163.50	107.50
French Corral	116.40	79.00
Grass Valley	3351.20	2182.00
Indian Flat	103.84	71.40
Indian Springs	141.52	94.20
Kentucky Flat	106.98	73.30
Lime Kiln	125.82	84.70
Mariposa	135.24	90.40
Markwell	113.26	77.10
Nevada City	**1292.08**	**841.80**
N. Bloomfield	106.98	73.30
N. San Juan	135.24	90.40
Oakland	336.42	220.70
Overton	166.64	109.40
Pleasant Valley	106.98	73.30
Rough & Ready	160.36	105.60
Spenceville	100.70	69.50
Sweetland	119.54	80.90
Truckee	496.78	326.30
Union Hill	128.96	86.60
Washington	116.40	79.00
Willow Valley	144.66	96.10
Wolf	103.84	71.40
Total	8694.42	5740.70

Special District Taxes, Grass Valley, 2145.13; Nevada City, $911.17; and Truckee, $489.05.

Last Apportionment for High Schools:—

Dist.	Salary	General
Grass Valley	$3745.12	$2414.28
Meadow Lake	569.60	382.40
Nevada City	**1950.88**	**1307.72**
Total	6265.60	4206.40

Special Taxes were allowed for the following districts:—

Grass Valley, 2866.96; Meadow Lake, $124.89; and Nevada City $1587.62.

COMMENCEMENT EXERCISES TO BE AT THE NEVADA

The commencement program of the Nevada City high school is to be held at the Nevada theater, Thursday, evening, June 9th.

Because the program is incomplete at the present time we are able to give a list of only the major units.

The partial program follows:

Musical scores by the High school orchestra.

Address by Class President, James Davis.

Salutatory by Betty Bettles.

Commencement Address by George B. Boisden, Assistant superintendent of schools, Sacramento.

Valedictory by Barbara McMinn.

Class Presentation by H. E. Kjorlie.

Presentation of Diplomas by R. J. Bennetts.

FATAL ACCIDENT AT PENNSYLVANIA MINE

William L. Titus of Grass Valley was fatally injured by a rock fall at the Pennsylvania mine Friday morning.

Medical examination was made at the mine by Dr. Carl J. Jones, after which Titus was rushed to the hospital. Little hope for his recovery was held at this time and he expired within an hour after being brought from the mine.

At the time of the accident Titus and other workers were bringing a drilling machine to the face of the stope when a large rock fell upon Titus. The force of the rock is believed to have shoved him, face down, into the drilling machine. A deep hole was cut in his forehead and his face was severely cut and bruised.

After the inquest by Coroner A. M. Holmes the body was taken to the W. R. Jefford & Son Funeral parlors.

Mr. Titus was a native Kansan but had lived in Grass Valley since 1927.

Members of the family arrived from Colorado Springs, Colorado, Monday evening. The funeral was held Wednesday from the W. R. Jefford & Son funeral parlors. Rev. H. H. Buckner, minister of the Methodist church of Nevada City, was in charge of the services.

Burial took place in the Greenwood cemetery near Grass Valley.

Titus is survived by a wife and daughter in Grass Valley, besides numerous relatives in Colorado.

BIG TRUCKEE RIVER GIVES UP BIG ONES

The opening of the trout season on the Big Truckee River May 15 brought news to the State Division of Fish and Game that fishermen used to fishing in high and roily waters got many limits, and some mighty big rainbow, some of the fish reported weighing as high as six pounds. Fly casters had no success whatever, but with the lowering of the stream level and clearing of the waters this class of anglers expect to have a lot of luck.

With the encouraging reports from the Truckee, anglers are anticipating some excellent fishing when the Upper Truckee, above the bridge along the Luther Pass highway is opened for fishing this week.

Wrights lake in El Dorado county will remain closed throughout this season, in order to build up the supply of trout in this splendid body of water. Through an error, this lake was omitted from the list of closed waters which was published earlier in the season.

MOTORISTS BENEFIT FROM U. S. RESEARCH

Although the automobile has reached a high degree of perfection the car owner continues to benefit from aid given the industry by the United States Bureau of Standards, according to the California State Automobile Association. Experiments conducted by the Bureau have proved of great value in bringing about more efficient fuels and more economical engines, with lower operating costs.

Tests have been conducted by the Bureau with regard to the best methods of braking, the best materials, and the general construction of brakes. Considerable work is now being done in the field of headlights, in an effort to still further improve the prevailing types now in use.

Mr. and Mrs. A. Medlin and son of Sacramento spent Sunday and Monday with Mrs. Fred Medlin of this city. Mr. Medlin is a son of Mrs. F. Medlin.

HERE . . . AND THERE

(By W. L. D., Jr.)

A July fourth celebration to be held in Nevada City is the decision passed at a meeting of the Chamber of Commerce Tuesday night. This is a fine thing for Nevada City and will show this section of the state that our little city is not as much asleep as some outsiders like to think.

More and more acute is the housing situation in Nevada City becoming. Now with the closing of schools for the holidays in the valley and bay sections, many people will be seeking residence in this city—vacationing—prospecting—just spending the warm days in the cooler climes—and no place to live. What more deplorable condition can a town be in than when people are being turned away EVERY DAY because of no housing facilities. Many of these people will in all probability become permanent residents—if they can find a place to live.

Now and then some one makes a remark about this section of the country being too civilized and being all so settled that hunting and fishing have been ruined by the advance of civilization, but still the State has been compelled to send their only state-paid lion hunter to settle with these miscreants for devouring cattle and other domestic animals of the aforesaid advance. And as to fishing. Ask the man who whips the local streams what he thinks of fishing in Nevada county!

A short A. P. item in a daily paper states that after 40 years of imprisonment in a penitentiary in Italy a man recognizes little of the world except church and prayers and that he thinks automobiles and street cars are "possessed of the devil." We too think some automobiles are "possessed of the devil," only he's in liquid form and comes out of a bottle.

More and more mining properties are being opened up all the time. Another big concern is opening up this week and have taken on 15 men. The weather is ideal and the time is right and gold is gold wherever you find it.

It must be that anything that isn't a "boom" in Nevada City is a "depression."

The man who does not find advertising profitable generally finds business unprofitable.

NEVADA CITY SKEET SHOOT SUNDAY ATTRACTS MANY

Although the rain made high scores exceptional, the skeet shoot was run off according to schedule Sunday.

The 250 bird team shoot was won by the Pacific Rod and Gun club of San Francisco with a score of 221. The Sonoma Gun club was the next highest with a score of 217.

The winners of the other events were as follows:

High gun: Class A—J. P. Cuenin of Pacific Rod and Gun Club, 50, trophy donated by Assemblyman Jerry Seawell; runner-up, W. Krohn of Tracy Gun Club, 47, trophy by Nevada City Skeet Cub.

Class B: High Gun—S. Huson, Nevada City Skeet Club, 42. trophy by Coroner A. M. Homes, runner-up R. A. Bumbarden, Tracy Gun Club, 41, trophy by Nevada City Skeet Club.

Class C: High Gun—R. R. Hewitson, Tracy Gun Club, 39, trophy by Sheriff George R. Carter, runner-up, George R. Carter, merchandise.

Miss and Out—Harry Fieckert winning the first event and J. Tognarelli the second event of this class.

The handicap shoot was held Monday. Elmer Durbin of Chico was the winner of this event. The prize was a $150. Irish spaniel given by the Percy K. Swan kennel of Chico.

52 POUND NUGGET VALUED AT $9,000

The Mariposa Gazette tells of a very spectacular strike that was made at the Diltz mine on Sherlock creek a few days ago when miners blasted from the vein a gold specimen weighing 52 pounds Troy weight and vaued at $9,000.

The specimen was almost solid gold but small pieces of quartz had been blown into it. It was cleaned and immediately sent to the mint in San Francisco. The specimen was as large as a man's head. It was found in the north drift in the lower level of the mine.

The mill at the mine has been operating steadily the past three weeks on excellent ore. The last was the largest of several rich spots found in the mine during the time it has been operating under the present management with E. R. Baker as superintendent.

NO DAMAGE AT SMALL BLAZE

The fire department was called out Monday morning to extinguish a small blaze caused by a chimney fire at the home of Mrs. Orzalli at 432 Broad street. No water was necessary to combat the flames, the chemical hose being sufficient. No damages have been reported.

NITE COACH SERVICE ON GREYHOUND STAGE LINES

Making possible a running time of less than twenty-four hours between San Francisco and Portland, Pacific Greyhound Lines today announced the inauguration of Nitecoach service between those points, effective Saturday, June 4th.

The nitecoach will be used between San Francisco and Medford where passengers will transfer to a deluxe parior car, especially fi'ted with light lunch facilities and lavatories, according to L. G. Markel, traffic manager of Pacific Greyhound Lines.

The new service will operate without stops enroute except to change drivers at approximately three and one-half hour intervals.

The usual low bus fares will apply on this limited service. Additional seat and berth fares will be $1.50 between San Francisco and Portland. $1.00 between San Francisco and Medford and 50 cents between Medford and Portland ,Markel said.

Direct connections will be made at Portland with a connecting bus line for Puget Sound points, making possible a trip from San Francisco to Seattle with but one complete night enroute and that night on the nitecoach, according to Markel.

The inauguration of nitecoach service to Portland came as a result of the popularity of the nitecoach service between San Francisco and Los Angeles which has been in operation for some months, Mr. Markel stated. The trip by nitecoach between San Francisco and Los Angeles takes but thirteen and one-half hours.

—O—

EXTERNAL PARTS MAY AFFECT COMPRESSION

Poor compression is not always caused by conditions inside the cylinder. External parts are sometimes at fault, according to the Free Emergency Road Service of the California State Automobile Association. Troubles outside the cylinder may include a broken valve, broken valve spring, warped valve head, a sticking valve, a valve held open by some foreign substance, a leak at the cylinder head, or a leaking spark plug.

—O—

INCLUDE BATTERY IN CLEANING CHASSIS

The battery should not be overlooked when cleaning the chassis of a car, advises the Free Emergency Road Service of the California State Automobile Association. Any acid which may be present can be neutralized by adding a little ammonia or washing soda to the water used for cleaning. This should be followed with plain water.

You and I

by CHARLES S. KINNISON

TREASURES O' THE HEART

It's nice to have plenty of money,
With all that gold dollars can buy,
But Life for me still can be sunny
Although poor in money am I.
We're buying a home—and we're healthy—
With plenty to eat and to wear,
So why should I ask to be wealthy,
With riches, like these, for my share!

With comfortable shelter above me,
A yard that is fragrant with flowers,
A wife and two kiddies who love me
And give me my happiest hours—
Who greet me at night with affection,
As, smiling, I open the door—
An evening of restful reflection—
Who is it that has any more?

FRENCH CORRAL

French Corral, May 31.—Tonight closes our May month. We have had a cold spell this last week. Friday night a cold south wind set in and Saturday afternoon it began to rain and continued doing son into Sunday

Fortunately Memorial day was clear and all plans for that event could be carried out. A good rain was needed in this section and did much good to the growing grass.

Many visitors were here during the week.

Miss Millie Cherkin, Mrs. F. Harris and Miss Lena Demke of N. San Juan visited friends Wednesday evening. Miss Demke's mother, who is one of the pioneer women of the San Juan Ridge was 94 years old on May 23rd.

Mr. and Mrs. H. Higgins of Los Angeles came to visit their niece Mrs. E. Sutherland Thursday.

Columbia Parlor No. 70, N.D.G.W. held a meeting Friday. Miss Therisa O'Conner was elected delegate to Grace Parlor to be held in Merced June 20th; Mrs. S. Reader, alternate.

Mr. and Mrs. Herbert Clymo and son, Frank of Benicia came Friday to visit with the family of W. E. Melbourne.

The family of the late M. J. Hein planned a reunion party to be held at their old home place in French Corral. Seven cars were parked here with 27 persons in the party. The party consisted of the following: Mrs. M. J. Hein, of San Francisco; Mr. and Mrs. D. P. Hein and children Floyd, Alice and Mable; Mr. Herman Hein and son, Clayton of Portland; Mr. and Mrs. C. C. Morris and daughter, Dorothy, of Ookland; Mr. and Mrs. A. Wana, Mr. and Mrs. F. W. Cournier, Mrs. Amenda Foucas, Miss Ida Hein, Mr. Marens Hein and friends Mr. and Mrs. MacCaddems and Miss Edna Olson, all of San Francisco. The arrived Saturday afternoon and despite the rain of Saturday and Sunday enjoyed the outing and returned to their homes Monday.

Mr. and Mrs. Bill Hatch and children of Nevada City were Sunday visitors.

Mr. and Mrs. Harry Moynier of Berkley visited Mr. Moynier's sister, Mrs. Browning, Sunday.

Mr. and Mrs. A. Gabour and children and Mrs. K. Broyles of Sacramento were Sunday visitors.

Mrs. M. E. Langley, Mr. and Mrs. Shepherdson of Nevada City had business here Sunday.

Mr. Charles Hall of Folsom and his father, Thomas Hall and sister, Lillian Hall were Monday visitors. Thomas Hall went to Folsom with his son for a visit.

Mr. and Mrs. E. Sutherland and Mr. and Mrs. H. Higgins went to Sacramento Monday. Mr. Sutherland and Mr. Higgins are en route to Nome, Alaska, and Mrs. Sutherland and Mrs. Higgins returned to French Corral.

H. B. Bishop went to Nevada City Monday.

The dance given by the San Juan Baseball team was a social and financial success.

Mrs. E. C. Pearse of Spenceville and seven children have moved to Birchville to reside. Mrs. Pearse will teach the Birchville school the coming term. Two children will attend high school and five the elementary school.

N. C. N. G. R. R. COMPANY TIME TABLE

Trains leave Nevada City at 4:45 a. m., Grass Valley 5:05 a. m., arriving at San Francisco 1:30 p. m.

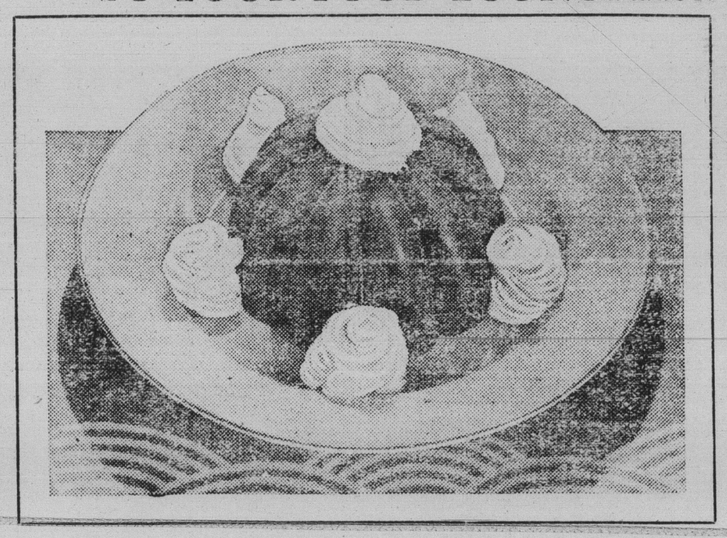
ADD A LUXURIOUS TOUCH TO YOUR FOOD ECONOMIES



TO count our pennies, to keep food budgets down, and yet to provide tempting fare—that is real kitchen art.

That is why chocolate's popularity never wanes. For chocolate gives the simplest, most economical dessert a touch of luxury.

Let chocolate work its magic with such old standbys as rice or bread pudding, and your family will give three cheers for your most economical dishes.

Chocolate Bread Pudding

1½ squares unsweetened chocolate, cut in pieces
3 cups milk
1 cup sugar
½ teaspoon salt
3 eggs, slightly beaten
1 teaspoon vanilla
1½ cups ¼-inch cubes stale bread

Add chocolate to milk in double boiler; heat. When chocolate is melted, beat with rotary egg beater until blended. Combine sugar, salt, eggs. Add chocolate mixture gradually, stirring vigorously. Add vanilla. Place bread in greased baking dish. Pour mixture over it. Place dish in pan of hot water. Bake in moderate oven (350° F.) 50 to 60 minutes, or until pudding is firm. Serve hot with hard sauce, or cold with cream. Serves 6.

Berkshire Pudding

3 squares unsweetened chocolate, cut in pieces
3 cups milk
¾ cup sugar
6 tablespoons flour
¼ teaspoon salt
1 teaspoon vanilla

Add chocolate to milk in double boiler and heat. When chocolate is melted, beat with rotary egg beater until blended. Combine sugar, flour, salt. Add small amount of chocolate mixture, stirring vigorously. Return to double boiler. Cook until thickened, stirring constantly. Cook 20 to 25 minutes longer, stirring occasionally. Add vanilla. Chill. Serve with cream. Serves 6.

Chocolate Fruit Pudding

3 squares unsweetened chocolate, cut in pieces
2 cups milk
1½ tablespoons granulated gelatin
½ cup cold water
1 cup sugar
⅛ teaspoon salt
½ cup seedless raisins
½ cup dates, seeded and finely cut
¼ cup walnut meats, broken
1 teaspoon vanilla

Add chocolate to milk; heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Soak gelatin in cold water, add sugar and salt; mix well. Add to chocolate mixture; stir until gelatin is thoroughly dissolved. Strain. Chill until slightly thickened, stirring occasionally. Add fruit, nuts, vanilla. Beat well; turn into mold. Chill until firm. Unmold. Garnish with sweetened whipped cream. Serves 8.

Serve these dessert the next time you have company—they will win compliments from your guests.

NEW GOLD MINING COMPANIES WILL BRING BACK PROSPERITY

Gold mining is the depression-proof industry and this fact accounts for the boom conditions growing in western gold mining areas. If you were contemplating a business investment today we will venture to say that you do not know what line of business you could enter with any assurance that you would succeed. Every line of business except gold mining business is in a depression.

The man who contemplates going into mercantile business had best hestitate. He can invest in gold mining with greater assurance that he will win. There is a growing demand for gold. We in the United States never see a gold coin in circulation and this conditions prevails also in foreign countries. Gold is hoarded by governments and the world is constantly crying for more gold. The West is more prosperous than the East because the West is producing new gold.

More mining companies should be organizezd to more rapidly develop the numerous prospects into producing mines. With the eastern investor fed up on foreign bonds and treacherous common stocks listed on the big eastern exchanges, there is greater opportunity now for the financing of new gold mining development. Western states should get behind the gold mining industry and should encourage the formation of new gold mining companies. State, county and city officers should help the promoter, for it is the company promoter who employs labor in times like the present when employment is needed. The company selling treasury shares for the development of gold mining is needed to bring the nation back to prosperity.

Business failures are numerous over the land. Courage must be tempered with good judgment if success is to be gained in new busines ventures. For our part we would much prefer to invest in a good mining company owning a gold prospect than to place money in a merchantile venture at this time. Gold mining is the most attractive and the safest under present conditions.—Denver Mining Record.

BI-METALISM IMPRACTICABLE

F. J. Lisman, New York banker, recently told why no other or better standard of value than gold has yet been found. Any substitute could be usable only if everyone were willing to take this substitute in exchange for whatever goods or services are sold, whether this substitute be silver, platinum or currency based on and credits, wheat or pig-iron. If everybody is not willing to accept it, then it is not a proper meduim of exchange.

NEWS IN BRIEF

Carlton Bennetts, medical student at McGill University at Montreal, Canada, has returned home to spend the summer vacation with his parents, Mr. and Mrs. R. J. Bennetts.

Mr. and Mrs. E. E. Barker and family left Tuesday for several days visit in Berkley.

Mis Margaret Rectoe, accompanied by Mises June Monroe and Florence Sheldon arrived last Saturday to spend the week-end with her parents, Mr. and Mrs. E. M. Rectoe.

Misses Mabel Stephens and Harriet Fischer, high school teacher, spent the week end in Berkley.

Mr. and Mrs. Stow, one time resi--dents werer in this city last week-end.

Mrs. Marvin Elliot, who has been visiting her mother Mrs. Hugh Murchie in San Francisco returned early his week.

Mr. and Mrs. Ferdinand Eilerman visited Mr. Eierman's father Fred Eilerman the fore part of the week.

Dr. and Mrs. A. H. Tickell returned Monday from a visit to San Francisco.

Fred E. Conner, manager of the Nevada County Lumber company is spending a day or two in the valley n business for his company.

Mrs. R. Kepenksie is here from San Francisco visiting with her aunt, Mrs. L. W. Kopp.

Dr. and Mrs. A. H. Tickell have returned to this city from a visit in San Francisco.

PHYSICAL EDUCATION IS INCREASING IN SCHOOLS

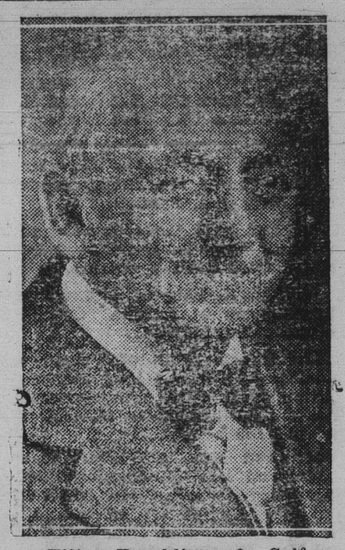
Sacramento —Physical education in the public schools is increasing in importance because of rapidly changing living conditions, highway and city traffic and because many natural opportunities for play have been wiped out. This is shown by a survey made by the State Department of Education.

Schools have provided play space, opportunity for recreation and leadership, combined with play safety.

Use of school play space is increasing rapidly because of the lessening opportunities to play elsewhere and because the school is being looked to for ideas in creating healthy and wholesome recreation for children.

IMPURE WATER HURTS BATTERY

Dirty water or water which contains chemical impurities should never be added to the storage battery, according to the Free Emergency Road Service of the California State Automobile Association. Impure water may cause damage to the insulators, corrosion of the grids, or reversal of the negatives.



Ellis Franklin of Colfax, member of the Board of Directors of the California State Fair, who has a prominent part in planning the 1932 exposition, September 3 to 10.

COLFAX MAN HELPS TO PLAN BIGGER STATE FAIR

Sacramento, May 31—Through many years of service as a member of the Board of Directors of the California State Fair, Ellis Franklin of Colfax has contributed many ideas which have brought about improvements and expansions in the scope of the exposition program.

Franklin has been responsible for the development and extension of the educational department at the fair. The California State Fair ranks highest among the fairs throughout the nation in this department.

Franklin inaugurated the State Fair Spelling Bee, a feature which has attracted nation wide attention. This contest brings together the best spellers in the elementary and high schools of the state as well as adults who compete in a "free-for-all" contest.

Franklin is chairman of the junior division, and vocational and art departments committee of the fair and director in charge of the Women's and Educational buildings.

"The interest which the public has shown in the educational department at the state fair is not only proof of the popularity of this feature ,but is a demonstration of the value of educational exhibits at the exposition," says Franklin. "California has valuable 'crops' of children as well as crops of agricultural, and horticultural products. The state fair exhibits of the work of children in the schools are a stimulus to an increased standard of education and an increased interest of the students in their various subjects."

TO BE SPECIAL FARES TO THE OLYMPIC GAMES

Los Angeles, Calif.—Special fares which will enable thousands of people in California and neighboring states to visit Los Angeles at "dollar day" prices during the Olympic games this summer are contemplated by several of the major railroad and steamship companies.

CALIFORNIA TREES TO BE FEATURE OF PHOTOGRAPH CONTEST ENDING SEPT. 7

"To stimulate interest in trees as a characteristic feature of the California landscape, and to encourage their preservation; to perpetuate through outstanding examples of photographic art something of the beauty and spiritual appeal of trees, whether standing as individuals or mased in forests" is the purpose of a Photographic Competition to be held under the joint auspices of the California Conservation Committee of The Garden Club of America and the Save-the-Redwoods League, according to an announcement made this week by these two organizations. Entries will be received up to September 7th, and an exhibit of the photographs will be on view at the M. H. de Young Memorial Museum in Goden Gate Park from September 21st until October 21st, the awards to be made on Friday, October 7th.

As an exampe of the esthetic and spiritual appeal of trees which it is hoped the competition will call forth the following exerpt from a chapter on the the Redwoods in his book: "The Living Past," by Dr. John C. Merriam, president of the Save-the-Redwoods League, is quoted in the announcement:

"Like pillars of a temple, the giant columns space themselves with mutual support, producing unity and not mere symmetry. Ponderous strength, an almost infinite variety in expresion of light and shade and color, and a perspective with marvelously changing depth, compose a scene such as canvas has yet to receive. But woven through this picture is an element which eludes the imagery of art. The sense of time makes itself felt as it can but rarely be experienced. While, through contrasts of their seemingly fantastic architecture, ancient castles may tell us of other ages, living trees like these connect us by hand touch with all the centuries they have known."

The awards, which are being donated by the Save-the-Redwoods League, are: First, $100; Second, $75; Third, $50; and Fourth $25. Other prizes will be announced later.

THE MATTRESS OF THE YEAR

Karr No. 176X . . . Inner-spring Construction

It has class, beauty, comfort—of the sort that lasts and lasts. We could, by all the usual standards, sell it for around forty dollars. It's that good!

Inside of this mattress is a retempered all-steel Karr spring construction with baked japan finish. Permanently locked coils alternate in right and left direction so as to always maintain an even, non-sagging surface. Any mattress man will tell you that this ype of spring unit is the last word in quality. YOU NEVER FIND THE KARR INNER-SPRING IN A CHEAP MATTRESS.

Shop if you will . . . but don't expect to find the equal of "Nineteen Thirty-two" for less money. We assure you that both ourselves and the maker have gone to the very limit in offering this mattress at $19.32. The approval of the Master Bedding Makers of America is, like our endorsement, your guarantee of absolute satisfaction.
